<p>Size ..... 18m x 12m            Supply and installation ..... £49,500            Groundwork ..... £13,500            (may not be required)</p>	<p>Size ..... 18m x 18m            Supply and installation ..... £63,500            Groundwork ..... £18,000            (may not be required)</p>	

Please note these are examples layouts and the system can be configured to various shapes and module sizes.  
 Groundwork is required where the site is not suitable for surface fixing.  
 Groundwork prices are subject to a site visit and include excavation, concrete work and surface reinstatement.  
 The canopy is self-draining down the inside of the frame and into the existing surface water drainage pattern.  
 Connection to a submerged land drain can be also be made, subject to a final survey.
